SUBJECT INDEX

Actinides

Lanthanides and actinides: annual survey of their organometallic chemistry covering the year 1995 163

Binuclear and polynuclear metal complexes

Complexes of heterocyclic thionates. Part 2: complexes of bridging ligands 475

Bridging heterocyclic thionate ligands

Complexes of heterocyclic thionates. Part 2: complexes of bridging ligands 475

Calixarene

Calixarene and resorcinarene ligands in transition metal chemistry 93

Cyclooctatetraenyl complexes

Lanthanides and actinides: annual survey of their organometallic chemistry covering the year 1995 163

Cyclopentadienyl complexes

Lanthanides and actinides: annual survey of their organometallic chemistry covering the year 1995 163

Electron-transfer

Phosphines as structural and functional probes of hemoproteins 447

Hemoproteins

Phosphines as structural and functional probes of hemoproteins 447

Lanthanides

Lanthanides and actinides: annual survey of their organometallic chemistry covering the year 1995 163

Molecular geometry

Complexes of heterocyclic thionates. Part 2: complexes of bridging ligands 475

Organometallic chemistry

Lanthanides and actinides: annual survey of their organometallic chemistry covering the year 1995 163

Phosphines

Phosphines as structural and functional probes of hemoproteins 447

Preparations and spectroscopy

Complexes of heterocyclic thionates. Part 2: complexes of bridging ligands 475

Resorcinarene

Calixarene and resorcinarene ligands in transition metal chemistry 93

Structure-function relationship

Phosphines as structural and functional probes of hemoproteins 447

Supramolecular chemistry

Calixarene and resorcinarene ligands in transition metal chemistry 93

Transition metal chemistry

Calixarene and resorcinarene ligands in transition metal chemistry 93
